## PROFESSIONAL PROFILE

With over 20 years of experience in the software development industry, including extensive work in the airline sector, I have consistently achieved excellence as a Fullstack Developer, Technical Project Manager, and Business Analyst. My ability to analyze complex customer needs, design scalable architectures, and deliver high-quality solutions has had a significant impact across industries such as **airline**, technology, finance, and e-commerce. I have played a key role in developing and managing systems for airline booking engines, check-in systems, and mobile applications, optimizing user experiences and improving operational efficiency.

Leveraging a deep proficiency in a broad range of technologies, including PHP, JavaScript, React, and Laravel, I have successfully driven both front-end and back-end development initiatives. My strong project management capabilities, underscored by a PMP® certification, have consistently ensured the achievement of strategic goals, timely project completion, and adherence to budgetary constraints.

Fluent in German, English, Catalan, and Spanish, I have thrived in leading and collaborating with international teams, often in remote settings. My dedication to continuous learning and a proactive approach to overcoming challenges have consistently resulted in the delivery of exceptional outcomes, meeting or exceeding expectations.

## WORK EXPERIENCE

### Technical Project Manager / Software Analyst - Freelance

Innoget | Barcelona, Spain | **Sep 2023 - Ongoing**

Successfully integrating and enhancing Innoget's open innovation platform, enabling seamless collaboration between innovators and researchers globally.
